Measure, Appointment or Topic: HB3054

Bills that are actually targeted at fixing the underlying cause of the housing and homelessness crisis work to reduce rents and reduce the rates at which they rise. This is one of those bills. There's a lot of attempts by the landlord industry to try and convince you that you can tackle homelessness and housing without reducing their ability to profit off of the hard work of others, but this is a lie. You cannot squeeze blood from a stone, and you must start controlling the rent and reigning in a market that is hostile to Oregonians.
