

Submitter:

Elizabeth DeVeau

On Behalf Of:

Committee:

Senate Committee On Energy and Environment

Measure, Appointment or Topic: HB3681

I am writing in support of HB 3681. This bill will streamline regulations and enable faster and simpler transmission planning in order to build out clean energy infrastructure. Electricity demand is projected to increase 30% in Oregon over the next decade and we need this bill in order to keep pace with that increased demand on the grid. Thank you.
