Measure, Appointment or Topic:	HB3731

We, the citizens of Oregon, are appalled at the increasing numbers of sexual predators that have been working in our school systems. These sick individuals have been preying on our vulnerable children for long periods of time and it is high time we put an end to this abuse of our educational system!

This bill is nothing too much to ask of schools who keep asking for more and more taxpayer dollars while providing bottom of the barrel results in the final evaluation of the quality of education for our children and grandchildren. Adding insult to injury, allowing sexual predators easy access to our children and not reporting it is a travesty and flat out wrong.

We strongly support HB 3731 as a start to keeping predators out of our schools and put pressure on administrators to report incidences of this behavior so less children will be harmed.
