Senate Committee On Rules

Measure, Appointment or Topic:

SB243

I'm a dealer in Oregon for 24years. I have only had to use the 72hr release 2-3 times in my life of my business. The exception being when osp stopped running instant bg checks in 2022-23. Any more restrictions and I will have to shut down my business. Our fics system in Oregon is worse than dmv. Constantly waiting for approvals. Constantly getting double charged due to a data based error. Zero accountability. I have folks that have been on delay since 2021.
