

Submitter:

Demetria Hester

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

SB238

No No No This is Wrong! Another Violation of Our Human and Constitutional Rights! This is another way to have a reason to murder us and get away with it! With this being passed You are going to get money from the government to legalize killing Us at Will

And have the technology to cover it up! How disgusting and Vile the thought of this being brought up! We All Know that this country doesn't care about the people! They care about Money, Power and Controlling people! This is another way you want to do it and We are Not in Support of This At All! We The People Do Not Want This! Spend the money on Reparations!
