Rebecca Anderson

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB3962

I am a local business person and know personally the value of this tax for our local economy. I have an Airbnb and pay into this fund. The current use supports our local businesses that depend on tourism for their survival. I serve on our local Tourism Advisory Board and am aware of the benefits that come from this funding.

This funding is vital for our local tourism industry. I am opposed to redirecting these funds away from their true purpose. The proposed changes will have adverse effects on our vital tourism business.

Speaking as a person who pays into this tax, I want the funds to continue to be spent as they are currently directed.

Please do not make changes that will be detrimental to our local economy.

Thank you,
Rebecca Anderson
