

Submitter:

Tim Ream

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB2977

To preserve the real legacy and meaning of Oregon for our children and grandchildren, we must dedicate funds to efficiently preserve at-risk species before they require extraordinary means for survival. This small tax increase will have little impact on working Oregonians, but will do so much to keep intact what makes our State great. Please support HB 2977.

Thank you.
