SB243

Geez Guys! You could NOT even wait for 114 to go through the court system for constitutionally. What happens IF the state loses in 114 to this bill? Because it's basis will be unconstitutional? You all need to read the Federalist papers, they explain why the wording was used the way it was in the Constitution. That the 2nd amendment protects the first. You also need to remember rights don't need permits privileges do. Gun RIGHTS! It's not gun privileges. And if you think for one second more gun control will stop suicides' you are a special kind of stupid. A person hell bent on ending their temporary problem has others means to do so. So next your outlaw cars, knives, illegal drugs, water and rope. Get serious! You only have to look at Chicago, you know one of the strictest gun control cities in the US to see gun control does not work. Throw all this money you are wasting on gun control at mental illness, bullying in school, hunters safety, drug laws and law enforcement. I STRONGLY OPPOSE ANY LAW THAT INFRINGES on gun rights!
