Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

To whom it may concern,

I have traveled all around the US and Canada.

When I tell people I am from Oregon I am surprised to meet so many who have visited and love the beauty.

I also meet others that want to visit.

This bill HB2977 would be a great way to help maintain Oregons beauty and diversity. This bill could also support the restoration of areas.

I believe this bill is fair and greatly needed.

Thank you, Irene Weiss
