

Submitter: Aubrey Jones

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: HB3365

I am writing as a lifelong Oregon resident to express my strong support for HB3365. The children of today deserve to know the facts about this critical issue—one that will shape their future and demand their leadership.

Climate change is not a political issue; it is a scientific reality that has been politicized. Education must be grounded in facts that will equip students with the knowledge and tools to understand the challenges ahead and develop meaningful solutions. HB3365 will help our young people prepare to engage with climate science in an informed and responsible manner.

I urge you to support HB3365 and provide Oregon's students with the education they need to navigate their future.

Respectfully,
Aubrey Jones
