

Submitter:	Nan Harvey
On Behalf Of:	HB 2977
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB2977

I firmly support HB 2977 as I understand it to provide species conservation. In this time of climate crisis, we need to support the life that has given us a balanced environment, as well as offer appreciation. This is not the time to destroy in the name of revenue. The cost is miniscule to the public.
