

Submitter: Chad Kernutt
On Behalf Of: WE THE PEOPLE
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: SB685

Dear Lawmakers,

My name is Chad Kernutt and I urge you to please vote NO on SB-685. This bill going after the hydrogen additions to natural gas makes no sense to me. Not only does it make the natural gas products more efficient when it's blended with higher hydrogen counts, it also makes it burn cleaner with less emissions. Hydrogen, like nuclear and hydro (dams) sources of energy, is not only clean for the environment and humans, but it is also highly efficient. And like nuclear and hydro (dams) sources of energy, hydrogen actually fits in the green energy umbrella so I don't understand why democrats are attacking it unless it's because it won't stuff their coffers like wind and solar will from the special interstellar groups. Please make government stop being part of the problem and finally make them part of the solution. Please vote NO on SB-685. Thank you.

Sincerely,
Chad Kernutt
