Yet another bill proposed and supported by the Communists--yes, I didn't mean Democrats, I meant Communists--that actively infringes on constitutional rights, most of whom have done nothing wrong but who have to endure the ire of leadership in the legislature who actively seek to prevent, deny, delay, discourage and disparage them for attempting to enjoy a constitutional right.

This bill will DO NOTHING about those who commit actual violence, criminals, many of whom also have guns but, since they're never actually prosecuted, that's not an issue. What about the recent rioters at Portland State? They'll get a slap on the wrist, at best. What about illegal aliens? Coddled and protected from ICE. But if one wants to buy a gun and enjoy a constitutionally protected right whether it's one or the hundredth, Oregon seeks to make it a criminal act.

You don't represent Oregon at all. You represent a Communist agenda. You are anti-Oregon and anti-rights. You are about oppression, not freedom. Oregonians want their freedom.
