

Submitter: Diane English

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2977

As a traveler, I assume that the tax I pay when I stay in lodgings is going towards benefiting those things that I am there to enjoy. The additional one percent is inconsequential to an individual but when combined with the thousands of travelers within and through the state of Oregon it leads to a significant amount of dollars taking some of the financial burden off the residents to protect that which we love and the reason so many travel to the state.
