

Submitter: Robert Tobias

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

Passage of this measure would reduce the quality of care for patients rather than expanding it. Physical Therapy and Acupuncture are both valuable medical practices but remarkably different disciplines. The "dry needling" process without connection to the greater practice of Acupuncture would reduce the efficacy of treatment options and weaken our medical referral community. Please consider NOT advancing this bill and renew your efforts to seek feedback from practitioners of Acupuncture before considering measures like this in the future.
