

Submitter: Candy Yow

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: HB3932

Thank you for the opportunity to testify in opposition of HB 3932. Having lived in Rural Oregon most of my life, I have lived with and studied livestock & wildlife for over 50 years. God created them to work together to create the best unity for Man, Land and Animals. When man steps in to change that up, it never ends up in a positive situation. Every time we try to protect one species, it will either destroy that species or other species as well as the land. Beavers are a huge part of Oregon History, they do incredible work, Trapping beavers is a huge part of Oregon History, if they are untouched for even a couple of years they will increase so rapidly they will inbreed, become full of sickness and spread it rapidly. This happens anytime we think we can fix what God has already taken care of. I could wipe out our Beaver completely but will for sure cause havoc on them. We have a great system in place right now, our beaver are doing well and are yet controlled by trapping. Why do we need to mess with something that is working. Common sense, please Oppose HB 3932 and keep our Oregon History by allowing trapping of Beaver. Thank you,
Candy Yow
