

Submitter:	Dean Sigler
On Behalf Of:	myself
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	HB3932

I live next to Beaverton Creek, a large stream that supports a great range of wildlife. Beavers have been a large part of the life of that creek in the 42 years I've lived here. Their dams have helped prevent floods on my property, even though I live on a flood plain. Neighbors used to kill them, but no longer. Beavers are essential to healthy creeks and rivers and are beneficial to all other wildlife in my area. This is a just and helpful bill.
