

Submitter:

David Putnam

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

HB3824

This is much like allowing untrained carpenters to install firestop systems. There is a time and place for specialized training, and this is one of them. I can't even begin to imagine the increase of staph infections, nerve damage etc that this poorly thought out plan will usher in.

Would you have a 711 attendant in charge of inflight refueling?
