Senate Committee On Rules

Measure, Appointment or Topic:

SB243

I fail to see how any of this bill will have an impact on criminal activity. The only people who will be affected are law-abiding citizens since, as we all know, criminals don't obey laws. This seems like a blatant attempt to disarm "regular" folks, leaving us unable to defend ourselves against criminals. On the other hand, if this is an attempt to disarm the public for some nefarious reason, that makes these laws more reprehensible. Please don't support these laws!
