House Committee On Judiciary

Measure, Appointment or Topic:

SB238

I strongly opposed SB 238. We do not need more surveillance in order to keep our communities safe. Instead, we need well-funded crisis response teams and services. We need well-funded mental health services that are available to all. Increased surveillance will not diminish crime, it will only make crime rates go up. For the sake of our safety, community wellbeing, and personal privacy, I say NO to SB 238.
