

Submitter: Sara Youner

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

This act is simply a money grab on behalf of allied health professionals to practice acupuncture without going to acupuncture school. Separating the actual Asian medicine from needles guarantees that this will become a mechanical therapy without true healing which may be fine for a sprained ankle but not chronic issues or internal medical issues. I'm sure this will not stop those allied professionals from getting their hours in and saying they are now acupuncturists.
