

Submitter: Thomas Melanson

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

I grew up in Hillsboro Oregon. I have not been back since I graduated physical therapy school. I have been offered different positions to return home but have not taken the opportunities because I wanted to practice physical therapy at the top of my practice. I have been trained and now teach dry needling, I work in an area where I can order images and have seen how that can greatly improve those we teach. I am in the business of getting people better and using every tool at my disposal. I do not believe that one professional or profession has a corner on the healing market but we all have a part and are best when we help each other with overlapping skills. Please pass this bill so I can return to Oregon.
