Police drones will make our communities more dangerous. They will only increase the police violence we are subjected to. In Nebraska and New Jersey, drones have already been used to surveil protests. In this critical moment of increasing repression and police militarization, we must ensure Oregon does not follow suit.

In an age where Trump wants to control all law enforcement, providing local police forces with more military equipment only emboldens authoritarianism.

Now is the time to take steps toward abolishing police, not militarizing them.
