

Submitter: Jered Evans
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: HB3932

This bill would make it so the professionals in charge of managing wildlife in our state do not have the ability to do their jobs. This bill is not rooted in sound science and uses studies that have been debunked to attempt to push an agenda. We need to leave politics out of management and let the science be the reasons for our management decisions.
