

Submitter:	David Frierman
On Behalf Of:	Licensed Acupuncturists
Committee:	Senate Committee On Health Care
Measure, Appointment or Topic:	HB3824

To Whom It May Concern,

I spent three years in college and thirty years studying and performing acupuncture. Acupuncture demands a thorough grounding in Chinese medical theory, a detailed grasp of anatomy, and hour of supervised practice. One cannot just put needle anywhere without knowing what one is doing. This bill is unconscionable. I strongly oppose it.
