

Submitter: Kelsey Entrikin

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB238

This is an unnecessary and potentially dangerous expansion of law enforcement authority. Removing the necessity of a warrant for search or surveillance removes the judiciary oversight from police proceedings. Who decides who is a viable target of these surveillance drones if there is no oversight or accountability? This has historical precedent in many authoritative governments as a way to invoke fear in citizens and increase executive powers of the ruling class. It should not be allowed to continue in the Oregon state legislature.
