Measure, Appointment or Topic: HB3789

I would like to express my strong opposition to this measure.

This bill specifically addresses an organization that is actively informing public sector union members about their rights and providing information that the union itself may not be communicating. This organization is playing an essential role in ensuring that union members are aware of important information regarding their rights and the activities of the union.

Recently, a union distributed thousands of postcards to legislators advocating for their members, raising concerns about whether these union members were adequately informed about the initiative. It is critical that union members are aware of how their names are being utilized in such efforts.
