Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB238

I don't agree with this further militarization of our police through the use of drone surveillance. There are real threats to Oregonian's safety and they are not the kind of threats drones can identify. These threats include lethal drugs being sold online, online manipulation of children, for example. Instead, drones seek to infringe on privacy. It's doesn't take much stretch of the imagination to see how these drones will be used against peaceful protesters, immigrants, or other Oregonians.

Please resist the urge to buy this technology and instead invest in appropriate responses to actual threats and in caring for our communities.
