To Whom it May Concern:

We are writing to join in advocating for additional state funding to complete the sewer improvements for the City of Culver. This funding would allow connection and completion to a planned 162 home subdivision, bringing much needed housing to the community. As a builder in the Central Oregon community for 20+ years, our mission is to provide quality constructed housing to accommodate the growing population in the area. Due to unforeseen delays and change orders with the sewer improvement project, the additional funding is vital to project completion and we would like to add our support to this request in order to construct the new housing development.

Respectfully,

George Hale
