SB243

To the members of the Senate Committee On Rules:

I would like to write to you to voice my strong opposition to SB 243. I feel that further restriction on CHL holders is not worth the cost of implementation. CHL holders are among the most law-abiding groups of people that exist, and already commit few to no crimes for fear of losing said permit. It's not like gang members or cartel members go in to their local sheriffs office to get fingerprinted and have their photo taken so that they can legally carry and then go and commit crimes. The only people who would be limited by this are the people who would allow themselves to be limited, which are law abiding gun owners, the very people who simply want to be able to defend themselves and others from harm.

14.7 million dollars spent on taking away peoples ability to defend themselves just makes no sense at all. Taking away a woman's right to defend her own body in certain areas makes no sense. Those areas will simply become more dangerous, because criminals won't respect the rule, and you can't have a police officer everywhere all the time!

Criminals and carry wherever they want, but I can't. Now I'm being punished further, but they're not. Why? I didn't do anything wrong. Why are you coming after me?
