Capital Construction

Measure, Appointment or SB5531
Topic:

I am a local mother of 3. My family uses the Osborne aquatic center for swimming lessons and I enjoy swimming laps. My oldest daughter and I both have Ehlers Danlos Syndrome which causes us to be more prone to injury in sports. Osborne is a great way for us to build our muscles and with a much lower risk of injury. We also use the parks and rec scholarship to pay for our membership and swim lessons at Osborne. This is such a very beneficial part of our community please vote in support
