Dear Committee Members,

No on SB 238A.

As fascism rises in our country unleashing drones (SB 238A) without a court warrant, is a terrible idea. People are already being “disappeared” while engaging in constitutionally protected activities. This is Oregon, not China, not Russia and this technology could be used to target and harass people. I am in disbelief that you are even considering SB 238A. It is a terrible idea.
