

Submitter: Brandy Kuykendall

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: HB3365

Dear Senator,

My name is Brandy, and I am a teacher in Coburg. I'm writing to urge you to support HB 3365, which would expand climate education across all subjects in Oregon schools. I believe this bill is crucial for preparing students to understand and tackle the impacts of climate change.

Climate change is already affecting our state, from wildfires to droughts, and it will continue to impact our future. I think it's important for all students to learn about these issues in subjects like math, science, social studies, and even the arts, so they can see how they connect to everything they are learning.

I strongly support HB 3365 because it will give Oregon students the knowledge and skills we need to face the challenges of climate change. I urge you to vote in favor of this bill.

Thank you for your time and for supporting climate education!

Sincerely,  
Brandy Kuykendall
