

Submitter: Cheryl Churchek
On Behalf Of: Osborn Aquatic Center Funding Request
Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction
Measure, Appointment or Topic: SB5531

I'm writing in support of the funding request for repairs to the roof of the Osborn Aquatic Center in Corvallis. Our aquatic center provides important services to the community, and those services have been severely impacted since the roof damage was discovered. The Aquatic Center is a place where swim teams practice, community members come together for exercise classes, children learn to swim and receive important water safety education, and our community can come together to cool off and socialize during increasingly hot summer days. Repairing the Osborn roof is vital to returning this important community asset to its full safety and functionality. Thank you for your consideration.
