

Submitter: Nirmala Kandadai

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5531
Topic:

Osborne is an extremely important part of our community in Corvallis. I strongly request the committee to vote in favor the measure. Osborne pool were kids learn to swim, not only help them athletically but is an important part of our community building and social network. We take great pride in hosting the championships, team building events, birthdays and social get togethers. Every resident in our town uses this facility. The impact also goes beyond our community, due to the strong aquatic team, there has been multiple success stories, with kids winning major scholarships for undergraduate studies. The coach Brandon who grew up in Corvallis, and went on to olympic try outs and received a swim scholarship swam at Osborne. My own little girl aged 10 is part of the fabulous swim team run at Osborne. The pool is literally one of the greatest pride and joy of our city and we sincerely hope the state can vote in favor of this bill.
