House Committee On Revenue

Measure, Appointment or Topic:

HB2528

HB2528, another grab at our money and freedoms. WE THE PEOPLE should be the decision makers on the issues, not the out of touch in Salem who think they need to throw our money at the state funding problems. The OHA is one of the worst decision-making authorities we have. They throw our money away on things like cooking classes to keep their budgets as fat as possible.

The powers that be have not solved a single social issue in this state but continue to spend billions with no accountability. First find out where this money has gone before taking more.
