Capital Construction
Measure, Appointment or SB5531
Topic:

Greetings,

Thank you for the opportunity to express support for SB 5531.

The Salvation Army is deeply committed to serving the most vulnerable members of our community in the South Coast region. We carry out this critical work from our location on Flanagan Street in the Empire area of Coos Bay, Oregon—an area filled with wonderful, caring people who both need and give support.

This bill represents an important investment in the services and infrastructure that sustain communities like ours. SB 5531 will help ensure that organizations like The Salvation Army can continue meeting the basic needs of individuals and families, offering food, shelter, and hope where it is most needed.

I respectfully urge your support of SB 5531.
