

Submitter: Bash Bradley

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB238

Giving local and state police greater ability to surveil citizens in public without warrants will NOT make us safer as Oregians. We need to invest more resources into actual social programs and legislation that reduce crime and prevent the conditions that have led to the unaffordability epidemic within our communities in the first place, not crack down on the populace using draconian tactics that have been proven result in failure time and time again.
