

Submitter: Alex Hardison

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: SB238

I strongly oppose SB 238, which would drastically expand the use of “unmanned aircraft systems”, that is, “drones”, by law enforcement throughout Oregon. This massive delegation of power to law enforcement could easily usher in an era of mass aerial surveillance that has a severe chilling effect on public speech, assembly, and movement, potentially in violation of Oregonian’s state constitutional rights against unreasonable searches.

I urge the committee to oppose the -1 Amendment to SB 238.
