

Submitter: ralph howell

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2528

So now a government agency will make decisions on taxation rather than elected representatives or the people directly? Thus, taxation without representation. Seems there once was a new country formed on this continent that was to end such a practice. But in so many ways Oregon continues dodge and steamroll over our founding principal in the name of expediency. Always the plea of tyrants.
