Letter of Support

Re: Keizer Community Fields Funding in Senate Bill 5531

To Whom it May Concern:

Oregon Lacrosse would like to write in full support of adding in a funding request for Senate Bill 5531 for funding for Phase III of the Keizer Community Fields. The fields have benefitted our program and the community tremendously this year.

Our South Salem High School Girls Varsity Lacrosse Team has utilized this field for their Spring 2025 season, which has included hosting games on the turf. This is our first year as a non-profit, and the goal of our organization is to grow lacrosse across Oregon, but specifically in the Salem-Keizer area.

By paving the parking lot as well as reconstructing the equipment building, Keizer Community Fields will be able to increase accessibility to the fields, and improve visitor experience. Hosting games, clinics, and youth programs brings people from other cities to Keizer Community Fields. By having the best facilities and experience for visitors and users of the field, Keizer Community Fields can be an inspiration for other communities in how to collaborate with partners.

Do not hesitate to reach out if you have any further questions at:
