

I appeal to Senators to SUPPORT of HB3054A and REDUCE the ANNUAL RENT INCREASE from 10% to 6%. I say 10% because that's what all the large out of state corporations are increasing our rent to annually.

Obviously, many residents are on a fixed income. Many rely solely on Social Security for their income, which does not sufficiently support the current 10% annual rent increase.

Please help by lowering the annual rent increase to 6 or less so we can remain in their homes.

Sincerely,

JOHN HODGIN
