Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5531
Topic:

I have engaged in swimming as an exercise for the duration of my life. I find this to be necessary to maintain my health, while lowering impact on my body as I approach retirement age. Two years ago I joined the masters swim group, which has exposed me to how much swimming is a part of the lives of children on up to seniors. The Osborne Aquatic Center in Corvallis has been a staple in accommodating exercise and recreation for the entire community. The significance of this came to focus last year, when the facility had to close down for repairs.

I would like to add my opinion in support of resources from the bill to go to this important facility.

Thanks

Christopher S. Elgin
