Senate Committee On Health Care

Measure, Appointment or Topic:

HB3134

As a small business owner in the complementary medical field I am un support of this bill. It is important legislation to increase public transparency around medical benefits, and what rates insurers are approving or denying claims at. This information is already collected, and the public has a right to know. On top of that I believe it will cut out unnecessary administrative burden that providers and businesses have to take on just to provide care to their patients.
