

Submitter:

Jamie Hampton

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

SB238

As a resident of central oregon, I believe in basic fundamental rights for residents - right to privacy, freedom of speech and protect. I do not want to be monitored, nor do I want any of my neighbors to be monitored, with unchecked power to use drones to collect data and use aerial surveillance of everyday people. It's the court systems that should be making these decisions, and police and sheriffs should be required to go to the courts to get a search warrant for specific uses of drones.
