

Submitter: Shannon Smith  
On Behalf Of: Amity Rapid Flashing Beacon for Pedestrian Safety  
Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction  
Measure, Appointment or Topic: SB5531

To whom it may concern:

I am writing in support of installing the Rapid Flashing Beacon for Pedestrian Safety on highway 99W in Amity, Oregon. As a parent of a student that often crosses this street after school, as well as a citizen that drives this road daily, a light is crucial to keeping our town safe. It is difficult to see pedestrians waiting to cross Hwy 99, due to parked cars along both sides of the road. When the sun goes down, it's nearly impossible. I have seen countless instances of people almost getting hit by vehicles trying to cross this road. Please help keep our community safe, by putting in this light feature. Thank you!
