Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

SB238

I oppose SB 238 and the modifications it makes to allow law enforcement to increase surveillance via drones without court warrants. I worry that the lack of judicial accountability will contribute to overreach by law enforcement agencies as they will not have the guidance of the courts. This could lead to the violation of rights of Oregonians and used to intimidate over policed communities and free speech assemblies. If any individuals' rights are violated, not only is that unconstitutional but it could lead to lawsuits payed out by cities and counties at a cost to their taxpayers. Please reject SB 238. Thank you.
