

Submitter:

Michelle Lagos

On Behalf Of:

Committee:

Senate Committee On Health Care

Measure, Appointment or Topic:

HB3824

The insertion of needles into the body is training that requires extensive training and by allowing persons with minimal experience to do so is dangerous and irresponsible to our citizens.

Please do NOT pass this to try to allow physical therapist to try to umbrella some funds into their practices. If they seek this license then have them complete the full training like a physical therapist license requires of everyone that seeks that license as well. Thank you.
