Committee: Senate Committee On Health Care

Measure, Appointment or Topic: HB3824

Physical therapists offer a lot and do a lot for individual health however minimal training into acupuncture should not give them the ability to perform acupuncture. Acupuncturist go to school for 3 to 4 years to gain their information and taking a week long course does not make you an acupuncturist. If you're an acupuncturist wanted to take 100 hour course to become a physical therapist we would not find it sufficient. The reverse should not be sufficient either.
