House Committee On Judiciary

Measure, Appointment or Topic:

SB238

Please reject SB 238 as it is written and amended. This bill would give police unchecked power to surveil the people of this state and infringe on our rights to privacy and to due process. It would usher in and legitimize a police state. This is a frightening proposition particularly given the Trump Administration's attack on all government institutions --including state and local--and its plan to implement its fascist dictatorship regardless of state and local values ---imagine how it could weaponize this police authority. I do understand the need for search and rescue use of drones but this bill goes way too far beyond that and will usher us into a police state. Please oppose this bill and help protect Oregonians.
